Professional Summary

Highly motivated and adaptable software engineering professional with a solid foundation in software development and data analysis. Possessing a strong desire to embrace new challenges and driven by a passion for continuous learning, I strive to deliver exceptional results across all projects. My positive attitude and growth mindset enable me to contribute effectively to team dynamics while fostering collaboration and innovation. Adept in creating user-centric applications and leveraging emerging technologies, I am eager to make a meaningful impact in the fast-paced tech industry.

Technical Skills

- **Programming Languages:** Python, JavaScript, HTML, CSS

- **Web Development:** React

- **Data Analysis:** SQL, Excel

- **CRM and ERP Systems:** Salesforce and Odoo

- **Graphic Design:** Adobe Photoshop

- **Project Management Tools**: Git

Professional Experience

Software Engineering Intern

SafetyPlus Consulting Ltd— FEB 2024 to MAY 2024

- Collaborated with a team of developers to enhance the user experience of the Safetyplus consulting Ltd website, leading to a 20% increase in user engagement.

- Designed and implemented user interface components using React, improving the website's responsiveness and functionality.

- Conducted user testing sessions and gathered feedback to inform design decisions and improve overall user satisfaction.

- Created safety awareness campaigns flyers for the company and updated the company website several times.

Learning Experiences

- **Continuous Learning in Software Engineering**: Developed a strong understanding of software development principles through hands-on projects, improving coding skills and problem-solving abilities.

- **User Experience Design**: Gained insights into user-centered design principles during the redesign of the Autocare Kenya website, enhancing my skills in creating intuitive interfaces.

- **Agile Methodologies:** Familiarized myself with agile project management techniques, learning the importance of collaboration and iterative development in software projects.

- **Data Analysis Techniques**: Improved data analysis capabilities by working with SQL and Python, enabling me to draw meaningful insights from complex datasets.

- **Graphic Design Principles**: Expanded knowledge in graphic design tools like Adobe Photoshop and Illustrator, allowing me to create visually appealing designs for web and marketing materials.

Education

Bachelor of Science in Software Engineering

Pioneer International University, Nairobi , Kenya — DEC 2024

- Relevant Coursework: Data Structures, Web Development, Software Engineering Principles, Database Management, User Interface Design
